

Instructions - If CD doesn't open automatically, find file *CdStart.doc* and open.

The file *CamcoreTests.xls* has links to the reports in subdirectory *DataReports*. You must enter the path of the *Data Reports* directory (whether on your CD drive or on a hard drive) into cell BL4 for the links to function. In the example below, the path of the data reports is "D:_CamcoreDataCd\DataReports". Note that

Directory Structure - If copying files from the CD or downloaded ZIP files, your final directory structures should look like the images below. In this example the root path of the CD is **D:_CamcoreDataCD**, your path will differ, but the subdirectories should look the same. If adding new updates from downloads, replace the files in the appropriate folders.
